That sounds good. I imagine that the letter doesn't fully answer the process questions she might have.

Mat and Jeff, Rep. Blumenauer's staff member is going to carefully read the letter to the Oregon agencies. If she wants further information, she'll send specific questions and suggested times for a call next week.

Jeff,

It's an informal email, rather than a CMS letter, on a Superfund topic, and then the Umatilla Basin:
I understand that earlier this year a Safe Drinking Water petition was filed with EPA regarding the Lower Umatilla Basin. Just as above, I'd like some information about EPA's process for considering such petitions and to get a status update on this petition, please.

I can send the letter that we sent to Oregon and ask if a call would still be helpful.

--Cindy

Cindy – what does the CMS inquire about specifically? Do you have a copy of the incoming letter/email?

Mat and Jeff,
Thanks to both of you for your quick replies.
The letter to the state agencies might be very helpful. Do you have a convenient copy, or should I check for it in CMS?

I am working M-F next week.

Cindy, would it be helpful to send the letter we sent to the state agencies? Or should we assume they already have a copy?

Thank you, Mat.
Would a Teams call, maybe 10 minutes next week, work for both of you if that works for the staff member?

Mat,

Are you the contact for this topic too? If so, would a phone call work to provide some information on the process and status to a staff member?

--Cindy, -1815
